

Contents

1. Mathematical theory of control processes	9
<i>Angelov T.A., Sukach M.P.</i> The method of searching for the closest point to the origin inside a polytope	9
<i>Volkova A.S.</i> Generalized solutions for elliptic equations in the problems of boundary control on a geometric graph	14
<i>Gnilitskaya Y.A.</i> Boundary control of vibrations of a string system	21
<i>Medvedeva I.V.</i> On the convergence method analysis for the time-delay system stability	26
<i>Slupko K.A.</i> On convergence of the method for the construction of Lyapunov matrices for differential systems with delay	32
<i>Sultanbekov A.A.</i> On the regular ultimate boundedness of nonlinear difference systems	37
<i>Sumacheva V.A.</i> The H_2 norm of a transfer function of a scalar neutral type time delay equation	43
<i>Falkov E.A., Kvitko A.N.</i> A method for solution the control problem on the part of the phase coordinates	49
<i>Firyulina O.S.</i> The computation of square (0,1)-matrices nondensity	55
<i>Fominych A.V.</i> A method for the construction of the approximate solution of the differential equation system	61
<i>Kholodnykh P.V.</i> The detailed model of the structure of complicated technical complexes in form of system of logic equations and its application	67
<i>Chumakov A.A., Tamasyan G.S.</i> Methods for searching the point of an ellipsoid nearest to the origin	73
2. Mathematical methods in mechanics and physics	81
<i>Altsybeyev V.V., Ovsjannikov D.A.</i> Trajectory beams control in hybrid systems subject to the distribution density of charged particles	81
<i>Andreeva T.A., Bedrina M.E.</i> Modeling the mechanism of the molecules interaction in the liquid crystal phase	87
<i>Belova O.A.</i> Flights to the collinear libration point L_1	94
<i>Bogdanov A.A., Golovkina A.G., Kudinovich I.V.</i> Optimization of the ADS characteristics	100

<i>Vasiliev A.A., Bedrina M.E.</i> The dependence of the calculations results obtained with DFT method on the representation of the wave function	106
<i>Vikulina Y.I., Grekov M.A., Kostyrko S.A.</i> Stress-strain state of an elastic body with a slightly curved surface in view of the surface stress.....	112
<i>Gaeva E.S., Krivovichev G.V.</i> Comparison of finite-difference schemes for solution of problems for a lattice kinetic equations system.....	119
<i>Gromov A.O.</i> Stekel's isothermal models of galaxies	125
<i>Yelaev E.V.</i> On the calculation of tolerances and their statistical verification.....	130
<i>Klimakov A.A., Vinogradova E.M.</i> Modeling of the diode system with a thin field tip	136
<i>Krivosheev A.G., Kasikova P.V.</i> Solution of nonlinear dynamics equations using the method of polynomial transformation	142
<i>Kuruch O.S., Vinogradova E.M.</i> The modeling of the field cathode as sphere on cone.....	148
<i>Larionov S.G., Vinogradova E.M.</i> The mathematical modeling of the electrostatic finite thickness aperture	154
<i>Makarova M.A., Vinogradova E.M.</i> Modeling of the diode emission system subject to space charge	159
<i>Malkov V.M., Stepanova V.A.</i> Large strains of a plane of harmonic material with interface crack loaded by pressure.....	165
<i>Miasnikov R.I.</i> Numerical methods for particle beams long-time evolution.....	171
<i>Prikhod'ko A.A., Nesterov A.V., Nesterov S.V.</i> On systematization of stable Mathieu equation decision.....	177
<i>Raik A.V.</i> Approximation of intermolecular interaction potentials.....	183
<i>Sedova O.S.</i> The plane problem of elasticity theory for a half-plane, a strip and a half-space.....	189
<i>Semenov S.A., Krivovichev G.V.</i> Numerical research of approaches to the boundary condition realization in lattice Boltzmann method	196
<i>Suspitsin K.S.</i> Solution of the Henon-Heiles problem using symplectic methods	202
<i>Syrov E.V.</i> The development of numerical-analytical model of the process of dry magnetic separation to create a dynamic control system of the process.....	209

<i>Televnyi D.S., Vinogradova E.M.</i> Calculation of triode-type system with a field tip	217
<i>Timkina V.E.</i> On a problem of stabilization of the orbital motion of the spacecraft in the vicinity L_1	223
<i>Trofimov V.V., Nikiforov K.A., Antonova L.I.</i> Study of field emission arrays of cathodes	228
<i>Ulanov E.A., Uteshev A.Ju.</i> Three attracting centers: stationary points for two potentials	234
<i>Khislamiev A.R.</i> Evaluation of the prolate spheroidal functions...	239
<i>Shirokolobov A.Y., Ovsyannikov A.D.</i> Mathematical optimization model of parameters of travelling-wave accelerator	245
<i>Yakushev E.A.</i> Fundamentals of mechanics of discrete solid body ..	251

3. Mathematical models of medical and biological systems 257

<i>Andreev N.S., Stepenko N.A.</i> Design of the difference periodic time series models	257
<i>Babin A.V., Kotina E.D.</i> Data processing of radionuclide ventriculography SPECT	261
<i>Barabanova S.A., Shmyrov A.S.</i> On the problem of estimating the parameters of the Zubov's approximation sums	267
<i>Bure A.V.</i> Estimation of the crisis time of patient's state using medical database	272
<i>Gordeev D.F.</i> Dosimetric data's processing for initialization of SCANPLAN	277
<i>Erichева E.V., Stepenko N.A.</i> Defining the parameters of nonlinear dynamical systems of certain natural phenomena	283
<i>Ivanova A.A.</i> The use of binary logistic regression for estimation the effect of factors on emergence of atrial fibrillation	288
<i>Lakrisenko P.A.</i> On boundedness of solutions of the switched Lotka – Volterra system	291
<i>Mamochev V.A.</i> On separation of three sets in the identification problem	297
<i>Morozov P.D.</i> A wavelet transform of acoustic signals	301
<i>Morozov P.D., Mikheev V.S.</i> Detection of threshold speech audibility using amplitude modulation	304
<i>Nikitina I.P., Gubar E.A.</i> The model of epidemic process in risk group in structured population	308

<i>Sudarev O.I.</i> Analysis of initial data of patients before cardiac resynchronization therapy.....	313
<i>Fotina L.A., Gubar E.A.</i> Vaccination effect to the epidemic process in structured populations.....	318
<i>Shcherbakova A.A.</i> The application of discriminant analysis to classify the children's eye diseases.....	324
4. Information and computer technologies	329
<i>Artemov A.G.</i> Problems of the three-dimensional object reconstruction from two images.....	329
<i>Grishkin V.M., Korolev A.I., Sukhmel V.A., Timoshenko D.M.</i> The static passphrase speaker verification system.....	335
<i>Grishkin V.M., Jakushkin O.O.</i> Service-oriented architecture development in C++.....	341
<i>Ivanov A.N.</i> A numerical implementation of the matrix formalism.....	347
<i>Kuznetsov P.M., Gorin A.V., Ivanov A.N.</i> Modification of visual odometry algorithm with optical flow estimation	353
<i>Maksimov A.J.</i> The development of PC user activity automation idea.....	359
<i>Mezentceva P.V.</i> Using subject field ontology in the problem of information retrieval.....	365
<i>Nvohiri A.M., Chernobrovkin D.I.</i> Design of webometric tools and their testing on Nigerian university websites	371
<i>Nefyodov D.E.</i> Computer vision problems in motion control of robot crawler	376
<i>Ryabusha V.A.</i> The conception of «Virtual accelerator» implementation based on cloud infrastructures.....	382
<i>Sevostyanov R.A.</i> Real-time program support of the control processes for the tracked robot	388
<i>Selezneva O.V.</i> Restoration of images distorted by noise with the help of Wiener filter.....	393
<i>Serdyuk Y.A.</i> The algorithm for detecting the content-bearing words by serial clustering and its experimental study	397
<i>Xue Y.</i> Computer simulation of vehicle motion control system ...	403
<i>Fedotova A.O.</i> Neural network approach to the identification of a linear model of the dynamics of ships.....	408

<i>Khromov A.A.</i> Compression of spectral images using principal component analysis and wavelet transform	414
<i>Sholokhova A.A.</i> Algorithm for monitoring of fulfilment of basic plan target by the medical organizations	420
<i>Scheglov A.K., Scheglov D.K.</i> The modernization concept of the exploitation control system for ground-based space infrastructure on the present stage of information technology development ..	424
<i>Yalov A.L.</i> Realization of genetic algorithm for the problem of speaker verification	430
<i>Aleynik S.V., Grishkin V.M., Korolev A.I., Sukhmel V.A., Timoshenko D.M.</i> Automatic preprocessing technique for detection of corrupted speech signal fragments for the purpose of speaker verification	434
<i>Kato K., Klyuev V.V.</i> Google app engine: how use and work.....	440
<i>Zeng Yi-Ching Li, Klyuev V.V., Shih-Hung Wu.</i> Opinion extraction from chinese web blog Corpora	443

5. Control problems in social and economical systems .. 449

<i>Baskov O.V.</i> Dual fuzzy cones.....	449
<i>Bogdanova O.K., Parilina E.M.</i> Markov process of the product distribution in social network	454
<i>Bolotina O.V.</i> Coherent risk measures	460
<i>Gurevich A.S.</i> Avoiding bankruptcy in a model with delayed payments	466
<i>Dubovenko A.R.</i> On the possibilities of managing the dynamics of demography at the macro level	472
<i>Yeremenko O.Y.</i> Method of the shock for rejecting defective items	478
<i>Zhigachjova A.L.</i> On modification of endogenous growth model of Lucas	483
<i>Zakroyschikov S.A.</i> Estimation of corporation liabilities before the worker on pension insurance.....	488
<i>Zamuraev K.A.</i> On an investment flow control in Saint-Petersburg economics.....	494
<i>Zaharov V.V., Krylatov A.Ju.</i> Nash equilibrium in a game of navigation providers	500
<i>Zenkevich N.A., Sokolov Ju.S.</i> A game-theoretic contract model of project management	506

<i>Ivanova K.A., Parilina E.M.</i> Weibull distribution in binary choice models	512
<i>Ignateva E.P., Kumacheva S.Sh.</i> Forecasting bank accounts demand balance	518
<i>Ipatova D.A.</i> Life insurance rate accounting based on linear intensity of mortality	523
<i>Kostjunin S.Ju., Shevkoplyas E.V.</i> On the choice of utility function in the problem of exhaustible resource extraction	527
<i>Marochkina K.V., Parilina E.M.</i> The method of trimmed k -means in cluster analysis	531
<i>Mezenin K.S.</i> Model of long-time contract in the supply chain ...	536
<i>Mironov B.D.</i> Pareto-optimal solutions for multicriteria problem of maximum matching	541
<i>Pertsovsky A.K.</i> Usage of clasterisation algorithms for solving vehical routing problem	545
<i>Petrosian O.L., Parilina E.M.</i> Methods of linear regression in the economic model of small demand	552
<i>Svichshikova M.V.</i> One way to solve stochastic programming problems of special type	559
<i>Chentcova E.I.</i> The problem of estimation of actuarial liabilities of a company to its employees	564
6. Applied mathematics and control processes at the faculty of AM–CP Saint-Petersburg State University	569
<i>Kirpichnikova N.Ja., Shmyrov A.S.</i> In memory of Sergei Nikolaevich Kirpichnikov (the 75th anniversary)	569
