

CONTENTS

Issue 3

Applied mathematics

<i>Garnaev A. Yu., Solovyev A. Yu.</i> A multi-step game the employee selection	3
<i>Mihcev S. E.</i> Existence and estimation of nonlinear equation solution in Banach space.....	13
<i>Chistyakov S. V.</i> On ε -saddle points of two-variable function	28
<i>Serdyukov Yu. P.</i> A method of signal build-up with given spectral characteristics.....	32

Informatics

<i>Kutarba A. Y.</i> Semantic processing with English texts	46
<i>Mozgovoy M. V.</i> Semantical analyzer and the problem of text retrieval.....	54

Control processes

<i>Vishnevsky V. E.</i> Rational approximations in nonlinear problems of quick action	60
<i>Plotnikov V. A., Plotnikova L. I.</i> Method averaging in discrete control problems	73

Issue 4

Applied mathematics

<i>Andrianov S. N.</i> Dynamical systems modeling. I. Dynamical systems propagator construction	80
<i>Morozov V. M., Kalenova V. I., Salmina M. A.</i> The nonholonomic mechanical systems. The stability and stabilization	93
<i>Spartakov A. A., Trusov A. A., Voitylov A. V., Vojtylov V. V.</i> Integral equations in electrooptics of biocolloids and other nanodisperse systems	102

Informatics

<i>Radchenko A. N.</i> Synapses, receptors and channels are the components of neural memory .	110
---	-----

Control processes

<i>Kosov A. A.</i> Stability analysis of singular systems by the method of Lyapunov vector functions	123
<i>Myshkov S. K., Polyakova L. N., Tarasova V. V.</i> On the applicability of numerical methods of nonsmooth analysis to the solution of a linear quadratic problem of optimal control with incomplete information	130

Papers	137
---------------------	-----

List of articles	140
