

CONTENTS

APPLIED MATHEMATICS

<i>Abbasov M. E.</i> Finding stationary points of functions allowing nonhomogenous approximations of augment	3
<i>Arefina A. I.</i> Design of H_2 -optimal controllers for time-delay systems. Spectral approach	9
<i>Bure V. M., Sergeeva A. A.</i> The model of service selection in the presence of different ways of ordering	18
<i>Igolkin V. N.</i> A markovian variant of Lundberg-Cramer's model of insurance company ruin	27
<i>Mazalov V. V., Kondratyev A. Y.</i> Bargaining model with incomplete information...	33
<i>Matrosov A. V.</i> Convergence of power series in the method of initial functions	41
<i>Makhinova O. A.</i> Properties of finite-difference analog of one-dimensional Laplace operator on the graph	52
<i>Provotorov V. V.</i> Construction of boundary controls in the problem of oscilation damping of a system from m strings	60
<i>Sidorin A. O., Shurkhno N. A., Trubnikov G. V.</i> Parameters modeling for tungsten – caesium field emission systems	70
<i>Yudin I. P., Voloshina I. G.</i> The calculation of the magnetic field maps for the integral statement for the analyzing magnet of the "Delta-Sigma-T" spectrometer	87

INFORMATICS

<i>Shelabin D. A.</i> Moving object classification using bayesian networks	97
--	----

CONTROL PROCESSES

<i>Sultanbekov A. A.</i> Certain stability conditions of nonlinear non-autonomous difference systems	109
--	-----

CRONICLE

F. M. Kulakov (to 80 since birthday)	119
--	-----
