

CONTENTS

Applied mathematics

<i>Vinogradova E. M., Krimskaya K. A.</i> Mathematical modeling of triode electron-optical system with modulator on the basis of field tip	3
<i>Gormin A. A., Kashtanov Y. N.</i> Variance reduction for option pricing	10
<i>Demyanov I. S.</i> Modification of the Novikoff method in identification problems	21
<i>Ermolaeva N. N., Kurbatova G. I.</i> Mathematical model of expanding liquid shell	28
<i>Igolkin V. N.</i> About a calculation of an unruin probability of an insurance company	38
<i>Kossovskaya T. M.</i> Recognition of objects from classes closed under a group of transformations ..	44
<i>Kreps V. L.</i> Finite non-cooperative games with unique equilibrium points	55
<i>Krivulin N. K.</i> On solution of a class of linear vector equations in idempotent algebra	63
<i>Kudryashova E. V.</i> Computation of bifurcation parameters for digital phase-locked loop	77
<i>Levina A. B.</i> Encryption with first order splines	81
<i>Nikushchenko D. V., Chistov A. L.</i> An algorithm for numerical simulation of wings systems with high thickness ratio	94
<i>Novoselov V. S.</i> Asymptotically optimum multiparameter transfer. 2. Second and third approximations	104
<i>Petrenko E. I.</i> On optimization of algorithms of invariant set localization of dynamical systems using code generation	111
<i>Pronina Yu. G.</i> Periodic problem of concentrated forces in an elastic half-plane with holes	118
<i>Sokolov S. V.</i> Stability conditions and estimates of solutions for a class of complex systems	129
<i>Surovtsova T. G., Chistiakov S. P.</i> On statistical test construction for a literary work authorship attribution	137
<i>Tulupyev A. L.</i> Probabilistic estimates consistency in conjuncts and disjuncts ideals	143
<i>Usevich K. D.</i> Decomposition of functions in 2D-extension of Singular Spectrum Analysis and related partial differential systems of equations	151
<i>Hiev L. T., Granichin O. N.</i> Using application of statistics for word extraction from vietnamese documents	161
<i>Shalymov D. S.</i> Continuous speech recognition using simultaneous perturbation stochastic approximation Algorithm	170

Informatics

<i>Grishkin V. M.</i> Computer system for monitoring monuments representing cultural heritage	181
<i>Ivanov A. N., Koznov D. V., Tyzhgeev M. G.</i> User interface modeling for Rich Data Intensive Internet Applications	189
<i>Kan D. A.</i> A problem of synthesis of sentences in a natural language	205
<i>Merkuryev D. V.</i> Universal dictionary with morphologic, syntactic and semantic information about wordforms of Russian Language	213
<i>Pimenov V. Yu.</i> Local interest point detection method evaluation in the problem of near-duplicate image detection	226

Control Processes

<i>Aleksandrov A. Yu., Zhabko A. P.</i> On the existence of limiting operating modes of nonlinear difference systems	238
<i>Smirnov N. V., Solovyeva I. V.</i> Application of the positional optimization method for the multiprogrammed stabilization of bilinear systems	251

Chronicle

<i>Ekimov A. V., Ereemeev V. V., Ermolin V. S., Zhuk V. V., Zenkevich N. A., Kamachkin A. M., Kirpichnikov B. K., Kuzyutin D. V., Petrosjan L. A., Aleksandrov A. Yu., Zhabko A. P.</i> V. F. Kuzyutin (to 70th of his birthday)	260
