## APPLIED MATHEMATICS

<i>Bereslavsky E. N., Aleksandrova L. A., Pesterev E. V.</i> Mathematical modeling of some filtration currents in underground hydromechanics.....	3
<i>Bure V. M., Kumacheva S. Sh.</i> A game theoretical model of tax auditing with using a statistical information about taxpayers.....	16
<i>Kuznetsova O. A.</i> Sixth and seventh Lyapunov quantities for Lienard system.....	25
<i>Matrosov A. V.</i> Computational instability of an algorithm of a method of initial functions.....	30
<i>Miroshin R. N.</i> The definition of a generalized polynom by its attractor.....	40
<i>Mishchenko A. V.</i> Modeling of conscious attention in processes of image cognition in human brain, based on adaptive-resonance neural networks.....	49
<i>Nikushchenko D. V., Nadymov E. N., Shushkov R. A.</i> An algorithm for numerical simulation of underwater vehicles with prominent parts, rudders and stabilizers.....	63
<i>Fadeev S. S.</i> Conditions for limit boundedness of solutions of nonlinear mechanical systems in case of gyroscopic force domination.....	74

## INFORMATICS

<i>Kulik B. A., Kurbanov V. G., Fridman A. Ya.</i> Theory of relations as instrument of semantic analysis of data and knowledge.....	85
<i>Lepikhin T. A.</i> Methods of increasing performance of digital systems with linear feedback..	96

## CONTROL PROCESSES

<i>Karelin V. V.</i> Penal functions in the problem of process supervision control.....	109
<i>Kvitko A. N., Nwokhiri A.</i> Solution of the problem of spatial movement control of an aircraft mass center.....	115
<i>Smirnov N. V., Shakhov Ya. A.</i> Multi program stabilization of the quasi-linear system....	128

## CHRONICLE

<i>Osipkov L. P.</i> Conference devoted to the anniversary of Department of cosmos technologies and applied astrodynamics.....	139
