

## CONTENTS

### Applied mathematics

<i>Demjanovich Yu. K., Kosogorov O. M.</i> On parallel spline-wavelet compression on irregular grid .....	3
<i>Zaranik U. P.</i> Construction of the attraction domain for a difference system .....	11
<i>Malozemov V. N., Chashnikov N. V.</i> Parametric Coons patches .....	16
<i>Polyakov V. V.</i> Solving the linear programming problem with interval variables using local search .....	23
<i>Rogov A. A., Spiridonov K. N.</i> The usage of Renyi fractal spectrum as the invariant of digital images .....	30
<i>Smolyakov A. L.</i> Template-driven knowledge extraction from text information .....	44
<i>Yashina M. V.</i> On one metrical problem for quadrics in $\mathbb{R}^n$ .....	51

### Informatics

<i>Kan D. A., Lebedev I. S.</i> Method of formalizing semantical links between objects in a natural language text .....	56
<i>Kossovskaya T. M.</i> Level descriptions of classes for decreasing step number of pattern recognition problem solving described by predicate calculus formulas .....	62
<i>Kulakov K. A., Korzun D. G., Bogoyavlenskiy Y. A.</i> An iterative algorithm for finding Hilbert basis of homogeneous linear diophantine systems associated with context-free grammar .....	71
<i>Cherepanov D. G.</i> An extension of Java by production knowledge representation features and its implementation .....	82
<i>Chilingarova S. A.</i> Optimizing Just-In-Time compiler for academic version of .NET (SSCLI) .....	86
<i>Yakhontov S. V.</i> The <i>LINSPACE</i> constructive analogue of the logarithm function .....	94

### Control processes

<i>Avdonin S. A., Bulanova A. S., Ovsyannikov D. A.</i> Optimal cubature formulae related to solutions of initial boundary value problems .....	108
<i>Aleksandrov A. Yu., Platonov A. V., Chen Ya.</i> On the absolute stability of nonlinear switched systems .....	119
