## APPLIED MATHEMATICS

<i>Dahl Yu. M.</i> On solution of some differential equations of mechanics by operating method.....	3
<i>Krivovichev G. V.</i> On one variant of the lattice Boltzmann equation method .....	10
<i>Lapin Yu. P.</i> On constructing exact penalty functions .....	21
<i>Mazalova A. V.</i> Duopoly in queueing system .....	32
<i>Malamanov S. U.</i> Asymptotic behavior model of turbulence near the surface .....	42
<i>Murzinov I. E.</i> On construction of common Lyapunov function for a family of mechanical systems with one degree of freedom .....	49
<i>Novoselov V. S.</i> On mathematical model of cardiac cells excitation .....	58
<i>Tregubov V. P., Radichkina A. O.</i> Mathematical model of left ventricle during the process of contraction .....	66

## INFORMATICS

<i>Babin A. V.</i> Mathematical data processing of gated blood pool SPECT .....	73
<i>Bure V. M., Karpenko P. A., Svirkin M. V.</i> Information-logical model and implementation of information-analytical complex "Admission to higher education institution" .....	83
<i>Lopatkin G. S.</i> Approach to automated testing digital devices .....	90
<i>Timoshenko D. M.</i> Combined method of face detection on images using Gaussian mixture model and Haar's cascades .....	99

## CONTROL PROCESSES

<i>Karelin V. V., Fominyh A. V.</i> Measurement process control in dynamical systems .....	105
